

A First Gen for the Next Gen.

- The first chlorophacinone soft bait rodenticide
- A first-generation rodenticide for outdoor and indoor use
- Palatable, multiple-feed soft bait that effectively kills rats and mice
- For consistent everyday use – during light to heavy rodent activity

FLATLINE[®]

The ideal choice for everyday maintenance.

Flatline has all the benefits of soft bait: easy-to-use, palatable and effective.

Simplify—Use it outdoors or indoors.*

Palatability—Bait formulation is palatable to mice and rats.

Flexibility—Quickly secure multiple pouch placements.

Size—Available in 1.81 kg bags of 28 gram pouches.

- The only first-generation soft bait rodenticide labeled for outdoor and indoor use
- Aroma attracts rodents and encourages feeding
- Contains chlorophacinone, a first-generation active ingredient
- Flatline is a multiple-feed anticoagulant rodenticide
- Best choice for everyday use to help stop damage caused by rodents
- No-wax formula doesn't melt in hot temperatures or freeze in the cold
- Vitamin K₁ is the antidote
- Bait is packaged in conveniently sized 28 gram soft bait pouch
- Pouches can be quickly secured with bait rods or feeding devices
- Made without nuts or seeds to reduce debris and service time
- Bittering agent added
- Soft bait rodenticide available in 1.81 kg individual bags or in 8-bag cases
- Kills Norway rats, roof rats, house mice, deer mice and white-footed mice

Try the latest in soft bait rodenticide technology from The Soft Bait Innovators®.
