First-generation rodenticide for use outdoors and indoors
Palatable soft bait that kills rats and mice
Use for light to heavy rodent activity

Flatline®

Soft Bait Rodenticide

The ideal choice for outdoor and indoor use.

Flatline® Soft Bait is the only first-generation soft bait approved for outdoor and indoor use*. It is the first and only chlorophacinone soft bait rodenticide for the professional market. Flatline is a good option when second-generation rodenticides are restricted.

- Aroma attracts rodents and encourages feeding
- Contains chlorophacinone, a first-generation active ingredient
- Flatline is a multiple-feed anticoagulant rodenticide
- Best choice for everyday use to help stop damage caused by rodents
- No-wax formula doesn't melt in hot temperatures or freeze in the cold
- Vitamin K₁ is the antidote
- Bait is packaged in conveniently sized 28-gram soft bait pouch
- Pouches can be quickly secured with bait rods
- Made without nuts or seeds to reduce debris and service time
- Bittering agent added
- Soft bait rodenticide available in 1.81 kg individual bags, 8-1.81 kg bag cases or 7 kg pail
- Kills Norway rats, roof rats, house mice, deer mice and white-footed mice

*As specified by the label.

Quickly secure pouches with bait rods
